INDEX

1. CATEGORY TEMPLATE

1.1 Nick name for buttons

You can add a nick name for your buttons with the objective of saving space in your templates.

To do so click on the button you want from the edit template window. Then click on ☐ Nick name and type the nick name you want in the text box

Button without nick name :
PICK AND ROLL LATERAL

Button with nick name:
PRL

Note: In timeline, datamatrix and action searcher the button will keep its original name (without nick name)

1.2 Do not show categories in play by play

You can choose which categories you will show in the Play by Play when doing a real time streaming.

To do so select the category you want and click on ☑ Add to Play by Play in the lower part of the behavior tab

Note: By default all the categories will be shown in the Play by Play

2. REGISTER OF ACTIONS

2.1 Counters in time mode for the manual categories

You can show the length of time registered while using a manual category instead of the amount of times you have registered it.

To do so select the manual category from the category template edition window and click on ☐ Time label

Button in time mode:
Possession 00:32

2.2 Customized delay time while real time capturing.

To choose the delay time while real time capturing right button click on ▶ icon in the Real Time Register environment and select the option you want.

3. TIMELINE

3.1 Double click to rename categories

To quickly change the name of a category double click on it in the timeline. Type the new name in the text box and click on [icon] to save the change. Pressing the Enter key will save the changes and automatically go to edit the next category.

3.2 Improvements in the drawing tool (text)

With these new option you can change the Font of the text by clicking on [icon].

To set a solid color as a background for the text select it on [icon] Color de fondo

To add a reference grid in order to make a draw click on [icon]

## 3.3 Synchronized selected categories.

To adjust the time of several categories at the same time click on [icon] and select the categories you want to modify. The next change to do will only affect the selected categories

3.4 Make a new category with the selected registers

To make a new category containing the selected registers click on [icon] All from the registers grid to see all the registers in chronological order. Select the registers you want keeping pressed the Ctrl key and click on [icon] and then on "Make a new category with selected registers" option

3.5 Overlay information on the video (notes and descriptors)

To show text directly over the video right button click on the video window and select "Overlay text in video". Now select the options you want.

Note: The final videos will NOT have overlay text.

3.6 Make a video with a Logo

To add a logo to the final video click on ⚙ from the video making window and then click on 🖼

Add the logo you want by clicking on 🖼 and looking for the file and select the place on which the logo will be

> **Note**: The recommended size for the logo will depend on the final video´s resolution.

3.7 Make a video with transitions

To add a transition between 2 registers in your presentation click on 🖼 then on "Add video transition" and select the transition you want.

> **Note**: Video transition will only be shown on the final video. It will NOT be shown when showing a presentation from the software

3.8 Export selected categories in to a .XML file.

You can export just the categories you select when making an .XML file to do so just click on 🖼 select the .xml export option you want and then select the categories you want in the window.

4. GENERAL CHANGES

4.1 Show video player time.

Now you can choose between 4 different ways to show the video player time. To do so go to the main menu and click on the tools tab. Click on "Options" and then on "Video player" finally select the option you want.
